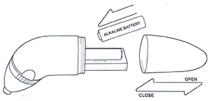
Operating Instructions

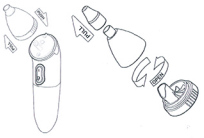
Clean the component parts as described in section <Cleaning of the machine> before use.

1. Installing the battery



(1) Remove the battery compartment lid. (Wipe the case to dry first if there is water remained.)
(2) Insert two no. 3 alkaline batteries with correct polarity.
(3) Mount the battery compartment lid.
* Remove the batteries if the machine is not used for a long time.

2. Removing and mounting the cup



(1) Lift the cup to remove it.
(2) Lift the silicon plastic nozzle to remove it.
(3) Turn the under-cover as indicated by the arrow to open it.
(4) Reverse the above steps to mount the parts.

3. Power on/off

Press the upper side of the rubber button to turn on the power, or the under side to off.

4. Sucking the snot

(1) Mount the Cup and Silicon plastic nozzle firmly.
(2) Turn on the power.
(3) Place the Silicon plastic nozzle at the outer side of your baby's nostril for about 3 sec., and the snot will flow into the collecting chamber.
(4) Clean the machine as described in section <Cleaning of the machine>.

Cleaning the machine

Remove the Cup as described in the <Operating Instructions> before you start to clean.

1. Cleaning the cup and the silicon plastic nozzle

(1) Remove the Cup, Under-Cover and Silicon plastic nozzle and clean them thoroughly with water.
(2) Sterilize by boiling water or steam.

2. Washing the case and the inner pump

(1) Make sure that the battery compartment lid is closed firmly.
(2) Remove the Cup.
(3) Have the machine soaked into a pot of warm water. Turn on the power and the inner pump will be cleaned. (The rotation rate of the pump is 5,000 rotation/sec, soaking for 5 sec will be well enough.)
(4) Change the water and repeat the cleaning steps for several times if needed.
(5) Clean the external of the case with water and neutral detergent
(6) Wipe the case to dry with soft cloth.

Specifications

Power: Two (2) no. 3 AA batteries (not supplied)
*Alkaline batteries are recommended.

Suction: Approx. 50 kPa (vary with the power remained.)

Size: 17 (L) x4.2 (W) x4.7 (H), cubic cm

Weight: 145 g (without battery)

Clean and hygienic. it helps to prevent the snot flowing over baby's face.
Washable after use, it leaves no chance for bacteria to remain.
Light-weighted and lovely-shaped, it is powerful and acts promptly.
Absolutely safe and unharmful, it suits any time, anywhere use.

Product Characteristics

- Act promptly – It takes only seconds to operate.
- Safe- Powerful and absolutely safe.
- Noiseless- can be used even when baby is in a sleep.
- Handiness- Light-weighted and lovely-shaped, easy-to-use, risky-not, will never result in pain or discomfort.
- Washable—Anti-bacteria, water-resistant, the machine can be washed with water and the cup can be sterilized by boiling water or steam.
- Convenient—Powered by battery, no charging needed, always stand-by.
- Power saving—Two No.3 alkaline-batteries for 1,000 operations (about 5 sec for each operation averagely).
- Warranty for one year.

** Safety Precautions **

- This Product is designed to remove the overflowing snot for children only. Do not apply it to any other purpose.
- Before use, make sure that the silicon plastic nozzle is firmly mounted at the inlet end.
- The product should be restricted to personal use. Do not share the product with others as this may help to spread infectious diseases.
- The Product is designed for at-home use only. It should not be applied to any commercial or medical purpose.

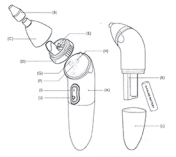
Cautions

1. Do not wash the Product before the battery compartment lid is closed firmly. Wipe the case to dry before you open the lid.
2. Do not remove the fixed screws and rubber parts, or you may damage the delicate water-resistant construction.
3. Do not wash and clean the product with thinner, benzene, or any solvent.
4. Stop using the product and have it delivered to our Home-Comfort Service if the product are damaged or deformed by severe strike.

Warnings

1. The Product is designed for competent adult use only; any use by child himself is strictly inhibited.
2. Do not use the Product on any purpose other than sucking the running snot of children.
3. It is strictly inhibited to place the nozzle at baby's nostril for a long time; a few seconds will be well enough to remove the snot.
4. Do not wedge the nozzle in the nostril; a touch with the outer side of the nostril will be enough for the machine to work well.
5. Do not use the Product if there is any wound, or symptom of inflammation or bleeding at the nose.
6. Be sure to clean the Product before and after use, referring to the section of <Cleaning of the machine>.
7. Store the Product in a dry and cool place. Remove the batteries if the machine is to be idle for a long time.
8. The Product is not to be used for medical purpose. If there should be any health related problem, please stop using the product right away and consult with a qualified physician.

Part Names



A. Body
B. Silicon plastic nozzle
C. Cup
D. Under-cover of the Cup
E. Snot collecting chamber
F. Air hole plug
G. Inlet hole
H. Outlet hole
I. ON-button
J. OFF-button
K. Battery compartment
L. Battery cover

White for thick nasal secretions
Blue for regular nasal secretions
Pink for new born baby between 0 to 3 months
